MedTitans, India's largest and fastest growing online community of Doctors and GreatWhite Technologies, licensees of the NASA developed AiroCide Enconditioning Technology, today asked the Government to explore alternatives to the Tamiflu drug and offered their expertise to help combat the spread of the disease. Comprising some of the most experienced and renowned Doctor's in the country, The MedTitans-AiroCide Swine Flu Expert Panel also announced a series of initiatives to educate and empower, not just the public, but also Doctors, on how to tackle and manage the spread of the pandemic.

"It is not just the public, but even Doctor's need to be made aware of how to handle the situation", said Dr. Ajit Menon, Chairman, medTitans and eminent cardiologist. "Through this panel, we are enabling the active involvement of both the medical fraternity as well as the private sector in managing the disease", he added. MedTitans is a 10,000 strong online community of Doctors from across the country who have come together to share knowledge,

Dispelling various myths that are spreading panic across the country, the MedTitans-AiroCide Swine Flu Expert Panel appealed to people to be calm and careful. "What India needs is a change in attitude and behaviour", said eminent Epidemiologist Dr. S.M. Sapatnekar. "A little personal hygiene, [civic](#) sense and an alert mind will ensure that you are not afflicted and the virus does not spread", he emphasised.

Highlighting the fact that even hospital environments are not safe, the Panel along with “GreatWhite Technologies offered to donate the highly sophisticated AiroCide Enconditioning **With Swine Flu still being a relatively unknown quantity, the Panel is planning to hold numerous seminars state-of-the-art AiroCide Enconditioning System for Doctors to guide them on how to tackle the disease.**” of Rupees, these machines, once installed, would keep the indoor air in the Casualty or the ICU free of any organic contaminants and ensure the safety and [health](#) of all those thronging the hospitals to get themselves and their dear ones checked.

As an immediate step, the Panel announced a series of Open Forums that will be held for the public where queries and issues would be answered by them. With Swine Flu still being a relatively unknown quantity, the Panel is planning to hold numerous seminars for Doctors to guide them on how to tackle the disease, handle patients, control the spread and avoid falling prey to the virus.

MedTitans also announced the launch of a 24-hour helpline (022-41088600) that would be manned by people trained by the Panel to address and guide the public. "This is a severe crisis and the entire medical fraternity wants to support the Government in its endeavours to control it", said Dr. Sujeet Rajan, renowned Respiratory specialist. "In the coming days, our Panel will grow to include more and more experts from across the country and each of us will do our little bit to help tackle situation".

The MedTitans-AiroCide Swine Flu Expert Panel includes:

- Dr. Ajit Menon - Chairman medTitans & Consultant Intervention Cardiology

W.H.O recommends tamiflu in 'severe' cases of swine flu. Should we wait that long as severe can soon become fatal.What are the [alternative medicines](#) ? Will antibiotics in any form, broad spectrum or against gram positive orgs. help in arresting the severity

of the illness when it affects the lungs.Has secondary bacterial infection got any role in this disease or is H1N1 and the other subtypes the sole culprits ?
